Receiving a bachelor's in Mass Media Arts from Clark Atlanta University, Brittany loves every aspect of what's been coined as "the culture."

While pursuing a career in broadcasting, she has sat in front of many microphones, using each opportunity to be a voice for Black people, particularly Black women.

She lives by the rule of "each one, teach one," believing that the more you have, whether knowledge, time, or resources, the more you should share. Owner of Sweet Tooke, an infused bakery, host of Mutha Lovin Session podcast, co-host of the Game on Trial podcast, loctician, and mother of 4-year old twins, Brittany understands the necessity of putting in hard work.

She enjoys being submerged in the culture, with hopes of learning, educating, and uplifting one another until the black wealth and ownership is regular conversation.

NANCY LAWSON

"My goal is not to be better than anyone else, but to be better than I used to be". - Wayne Dyer

A Georgia Peach native, but raised in the heart of Dallas, Texas this southern belle is a force to be reckoned with. After relocating back to Georgia with her family during a pandemic she has continued to strive and obtain all goals she has set forth for herself. A graduate from Kaplan University with a BSC in Health Administration and currently completing her second bachelor's degree in Business Administration from American Intercontinental University she is setting an example that you can do anything you put your mind to which she is surely doing. Initially, with intention of moving up into a higher position in the medical field, the pandemic showed her that she was more than a person behind a computer device.

A wife and a mother of two beautiful girls who loves everything about fashion and beauty decided it was time to follow her heart and what she loves. Leading to the birth of House of Amir Boutique a women's fashion and apparel brand. "Anyone that knows me knows I love beauty and fashion. Every time I go out that's the first thing, I get complimented on is my looks followed by where do I get my pieces from. I would meet so many beautiful ladies out and about, but the number one thing they all would mention is being able to find classy, chic, conservative outfits that didn't reveal everything. It was then I knew I needed to provide a brand that showed women and young girls that you can still look fabulous and be fully clothed."

NIKIA GAY

Lady Nikia is a very hardworking and dedicated Clinical Case Manager.

I love what I do, because the largest part of my heart is most satisfied when I am able to be of help to someone else. I have two adult children (son, 21 and daughter, 25) that I am totally in-love with. We have a very close relationship, which I value more than anything.

Now that I have successfully raised them to be responsible and independent enough to leave the nest, it is time for me to do all of the things I aspire to accomplish. In the very near future I will have my own Credit Repair business with the ability to earn residual income while helping people repair their credit at the same time. However, my long-term goal is to own an exclusive Ladies only lounge with all male staff.

In the meantime, I also have a story to write that I want to be seen on screen. More to come on that! Ultimately, what motivates me to obtain wealth is so that I can build several homeless shelters that will not only provide food and shelter, but also services to help them get back out into society with dignity, confidence, self-respect and motivation.

I joined Kappa Theta Lambda Sorority, because I was deeply moved by the intelligence and talent that each of my Sisters possess and their openness to share valuable information. There is something to learn from each and every one of them and I only hope to continue to bond, grow with and be of the same value to my Sisters, as well.
